*Our Austin, Our America*, a collaborative community project, focuses on equity and inclusion. Portrait photography and personal narratives tell the story of how immigrants, refugees, and other newcomers have made Austin, Minnesota, their home. A photography exhibit features immigrants and refugees from around the world and community members who welcome and assist them. An accompanying book to this exhibit is available to purchase on the MNHS online store, or at the Capitol Information and Tour Center.

The project brings the vision of photographer **William Taufic** to life. Taufic, an Austin native and son of an immigrant, was inspired to document Austin's strategic approach to equity and inclusion.
